I. INFORMATION OF A GENERAL NATURE

1. Processes of labour migration in Azerbaijan are regulated by the following State bodies:
 - State Migration Service (established under Presidential decree No. 560 of 19 March 2007);
 - Ministry of Foreign Affairs;
 - Ministry of Labour and Social Protection;
 - Committee for Refugees and Displaced Persons;
 - State Border Service.
2. Azerbaijan's legislation in the field of labour migration consists of the Constitution, the Labour Migration Act, the Immigration Act, the Entering and Leaving the Country and Passports Act and the Trafficking in Persons Act, international conventions ratified by Azerbaijan and bilateral and multilateral agreements signed by Azerbaijan.
3. The country's migration policy is guided by the principle that discrimination on grounds of race, sex, religion, citizenship, age, political opinions or membership of any social group is not tolerated.
4. The main purposes of State migration policy are:
 - To harness migration processes effectively for the development of the State;
 - To ensure that the interests of the State, society and individuals are respected in the implementation of programmes and measures relating to migration;
 - To combat illegal migration;
 - To create conditions which will enable migrants to adapt speedily to social and economic conditions in the country;
 - To protect migrants' rights.
5. By decision No. 1575 of 25 July 2006, the President approved a State Migration Programme for 2006-2008, which sets out the main directions of migration policy and measures for implementation.
6. This policy provides for coordinated activities by the appropriate State bodies under the State Migration Programme in the following areas:
 - Forecasting of migration processes, drafting of an effective State migration policy in the light of changes in the political and economic situation, improving administrative machinery in the field of migration;

- Improving legislation in the field of migration;
- Ensuring effective State regulation in the field of migration, implementation of appropriate measures to eliminate duplication, coordination of the activities of the appropriate State bodies in the field of migration;
- Expansion of cooperation with the migration agencies of other States and international organizations in addressing problems in the field of migration;
- Establishment of appropriate arrangements for the integration into society of foreigners and stateless persons living in Azerbaijan and their adaptation to local conditions;
- Implementation of a set of measures to combat illegal migration and trafficking in persons;
- Setting up of an advisory service on migration, and so on.

7. Azerbaijan has acceded to 15 international legal instruments in the field of migration and the Agreement on labour migration and social welfare for migrant workers from the CIS (Commonwealth of Independent States) States (15 April 1994), and has signed bilateral agreements on cooperation in the field of migration with Ukraine, Moldova, Kazakhstan, Kyrgyzstan and Belarus; the signing of similar agreements with a number of other countries is pending. These agreements deal principally with protection of the rights of migrant workers, social welfare for such workers and simplification of job placement procedures.

8. At present, labour migration in Azerbaijan is growing. While Azerbaijani citizens are migrating abroad to work, foreigners are also migrating to our country to work.

9. Migration by citizens of Azerbaijan abroad to work, which started at the end of the 1980s and the beginning of the 1990s, has undergone substantial changes both in nature and in scale since then.

10. Azerbaijani citizens migrated abroad on a large scale owing to the political and economic crisis which arose at the end of the 1980s and the beginning of the 1990s, the fact that some 1 million persons became refugees or were displaced as a result of the occupation of 20 per cent of Azerbaijani territory by Armenia, and the drop in demand in a number of occupations caused by the transition to new socio-economic relations. This is now no longer the case, and the country is witnessing the return of citizens who had left the country and a rise in the number of foreigners arriving in Azerbaijan.

11. The main reason for the reduction in migration abroad by Azerbaijani citizens is the rapid economic growth in the country and the rise in the standard of living.

12. A superficial analysis of labour migration shows that the main destinations of Azerbaijani manpower are the Russian Federation, Turkey, Ukraine, the United Arab Emirates, Germany and other western European countries. The largest numbers of Azerbaijani migrant workers are to be found in the Russian Federation. They are mainly occupied in small businesses and illegal trade.

13. The fact that Azerbaijan is carrying out large-scale international oil exploration and oil transport projects, its socio-political and macroeconomic stability, the creation of a favourable climate for business and foreign investment, and the dynamic growth of the economy, are the main factors involved in increased migration by foreigners to Azerbaijan.
14. Given the current rate of economic development and the socio-political stability in the country, the flow of migrants to Azerbaijan is expected to grow in the coming years. Our domestic labour market is expected to be dominated by ethnic Azerbaijanis living in the CIS member States (especially the Russian Federation and Georgia) and Turkish citizens. Statistics on the registration of foreigners by place of residence show further growth in the rate of migration of citizens of these States to Azerbaijan.
15. Foreigners who come to Azerbaijan mainly engage in paid employment, and the corresponding State agencies take all necessary steps to ensure that this process is carried out in accordance with Azerbaijani law.
16. The fact that Azerbaijani legislation in the field of labour migration is in keeping with the provisions of the International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families ensures that all the obligations arising from the Convention are fully complied with.
17. In accordance with the domestic procedure for accession by Azerbaijan to this Convention, the Government informed the appropriate State bodies, which were provided with the corresponding instructions, and the public was also informed through the media.
